
SEE THE WORLD IN **VIVID COLOR** WITH **COLORBOOST™ LENSES**

SPORT

Enhance target recognition, tracking, and reaction time.

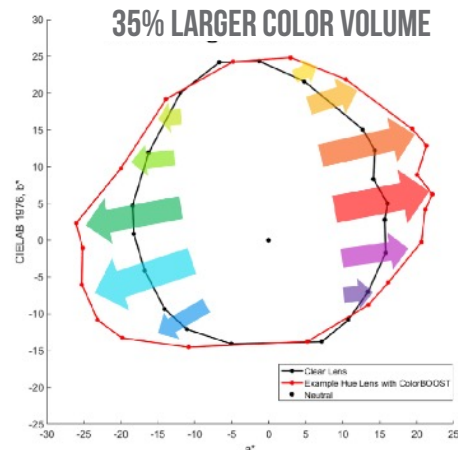

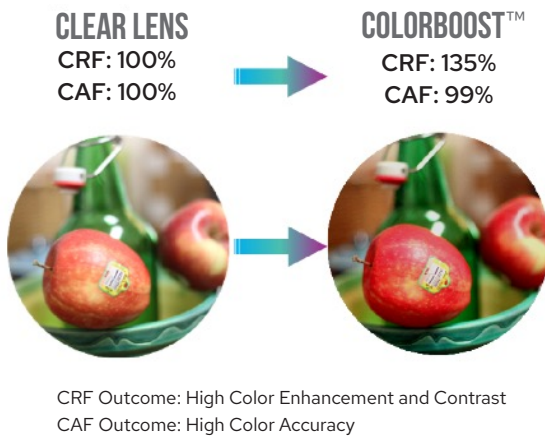

ENJOYMENT

A vibrant, cinematic experience akin to a photo filter.

SAFETY

Enhance detection of safety markers and hazards.

HIGHER COLOR RESOLUTION FACTOR MEANS SUPERIOR LENS PERFORMANCE FOR SPORTS, ACTIVITIES, SAFETY, AND OVERALL ENJOYMENT!

The Color Resolution Factor (CRF) quantifies distinct color transmissions, with higher CRF indicating superior lens performance. COLORBOOST™ boasts the highest CRF in the industry. Additionally, COLORBOOST™ Lenses maintain a 99% Color Accuracy Factor (CAF), preserving natural hues and depth perception for a more comfortable experience.

COLORBOOST™ OFFERS A RANGE DESIGNED TO SUIT ALL PATIENT'S PREFERENCES AND ACTIVITIES:

- Prioritizing performance, safety, or enjoyment.
- Are they active in pickleball, golf, fishing, hiking, prioritize driving safety, or spend time gaming? There's a COLORBOOST™ lens to impress them.
- Explore our Lens Recommendation Tool for personalized suggestion.
